

LIST OF SLIDES TO EXAM ON HISTOLOGY

1. Simple squamous epithelium (mesothelium).
2. Loose connective tissue.(по Ясвоину)
3. Dense regular connective tissue (tendon). (H&E)
4. Hyaline cartilage. (H&E)
5. Elastic cartilage.(Orsein)
6. Intervertebral disc. (H&E)
7. Lamellar (compact) bone.
8. Intramembranous ossification (bone formation).
9. Endochondral ossification (bone formation).
10. Smear of human blood.(May-Gruenwald Giemsa method)
11. Smear of red bone marrow.
12. Myelinated nerve fibers (with osmium).
13. Non-myelinated nerve fibers.
14. Spinal cord ganglion. (H&E)
15. Spinal cord (silver impregnation).
16. Autonomic ganglion. (H&E)
17. Cerebellar cortex. (H&E, impregnation of Golgi)
18. Cerebral cortex. (H&E, impregnation of Nissl)
19. Posterior wall of the eye. (H&E)
20. Cornea. (H&E)
21. Inner ear. Corti organ (H&E)
22. Wall of the heart. (H&E)
23. Myocardium. (ferrum H&E)
24. Muscular artery. (H&E)
25. Muscular vein. (H&E)
26. Aorta. (elastic Van Gieson)
27. Microvessels (H&E)
28. Lymph node. (H&E)
29. Spleen. (H&E)
30. Thymus. (H&E)
31. Pituitary gland. (H&E, Mallory)
32. Suprarenal gland. (H&E)
33. Thyroid gland. (H&E)
34. Parathyroid gland. (H&E)
35. Trachea. (H&E)
36. Lung. (H&E)
37. Tongue. (H&E)
38. Filiformis papillae of the tongue. (H&E)
39. Parotid gland. (H&E)
40. Submandibular gland. (H&E)
41. Sublingual gland. (H&E)
42. Palatine tonsil. (H&E)
43. Esophagus. (H&E)
44. Pylorus. (H&E)
45. Gastric fundus. (H&E)
46. Small intestine. (H&E)
47. Duodenum. (H&E)
48. Large intestine. (H&E)
49. Appendix vermiformis. (H&E)
50. Human liver. (H&E)
51. Pancreas. (H&E)
52. Kidney. (H&E, Mallory)
53. Urinary bladder. (H&E)
54. Ureter. (H&E)
55. Testis. (H&E)
56. Epididymis. (H&E)
57. Prostate. (H&E)
58. Ovary. (H&E)
59. Corpus luteum
60. Uterus. (H&E)
61. Mammary gland. (H&E)
62. Placenta. Fetal portion. (H&E)
63. Placenta. Maternal portion. (H&E)
64. Skin of finger (H&E)
65. Thin skin. Hair follicle(H&E)
