

XXXI INTERNATIONAL PIROGOV SCIENTIFIC MEDICAL CONFERENCE

Dear colleagues!

Pirogov University invites you to take part in the XXXI International Pirogov Scientific Medical Conference, which will be held on 18–19 March 2027 in Moscow.

The Conference will bring together young researchers and representatives of the professional scientific community to discuss the results of current research in healthcare and related fields.

In 2027, alongside the traditional research areas, the program will include new areas in biomedicine, digital technologies and the humanities.

At the conference, students, residents, postgraduate students and research and teaching staff under the age of 35 will be able to present their research results as an oral report or a poster presentation.

According to the results of the conference, an electronic collection of materials will be published and included in the Russian Science Citation Index (RSCI).

Participation in the Conference is free of charge and may be in Russian or English.

Abstract submission is open **until 13 December 2026** on the conference website: <https://pirogovka-reg.rsmu.ru>.

The requirements for the preparation and submission of abstracts can be found in the Attachment to this information letter.

For questions about submitting an application and participating in the Conference, please contact the organizing committee by e-mail: [**pirogov_conf@rsmu.ru**](mailto:pirogov_conf@rsmu.ru).

RESEARCH AREAS

1. Obstetrics, gynecology and reproductology

2. Outpatient medicine

- General practice and family medicine
- Polyclinic internal medicine

3. Anesthesiology, intensive care and disaster medicine

4. Human biology and pathology

- Human biology and pathology
- Forensic medicine

5. Nervous system diseases

- Neurology
- Psychiatry and addiction medicine

6. Gerontology and geriatrics

7. Hygiene and preventive medicine

- Hygiene
- Microbiology
- Preventive medicine

8. Pediatric surgery

9. Immunomedicine, genomic and molecular technologies

- Immunomedicine
- Medical genetics
- Molecular technologies

10. Cardiology

11. Clinical psychology

12. Clinical internal medicine and systemic diseases

- Gastroenterology
- Dermatovenereology
- Infectious diseases
- Nephrology
- Pulmonology
- Rheumatology and immune-mediated inflammatory diseases
- Phthisiology

13. Global medicine

- Humanities
- Foreign languages
- History of medicine
- Medical law and ethics

14. Oncology, hematology, cell technologies in cancer treatment

15. Otorhinolaryngology

16. Ophthalmology

17. Pediatrics

18. Neonatology

19. Rehabilitation and sports medicine

20. Dentistry

- Orthodontics
- Orthopedic dentistry
- Therapeutic dentistry
- Maxillofacial surgery

21. Transplantology and vascular pathology

- Cardiovascular and endovascular surgery
- Transplantology

22. Pharmacy, medicinal chemistry

- Preclinical studies in pharmacology

23. Organization of pharmaceutical practice

- Organization of pharmaceutical practice
- Pharmacy management and economics
- Pharmaceutical management and marketing

24. Surgery

- General surgery
- Neurosurgery
- Traumatology and orthopedics
- Urology

25. Healthcare organization and public health

- Medical technologies
- Healthcare organization and public health
- IT in medicine

26. Endocrinology

REQUIREMENTS FOR THE PREPARATION AND SUBMISSION OF ABSTRACTS

1. General requirements

The Conference accepts the results of original scientific research that falls within one of the Conference's research areas. The work must contain the author's own results of the research conducted.

The following formats are not accepted for consideration: review or reference of scientific literature, clinical case, essay, project of planned scientific research or experiment.

The work must not have been previously published. The originality of the abstract text must be 85% or more.

When submitting an application, the participant chooses the research area that best corresponds to the content of the work. The chosen area is used to organize the expert evaluation and does not determine the final section of the presentation. The distribution of accepted works among the sections is carried out by the organizing committee when forming the Conference program.

2. What you need to prepare to submit an application

Application element	Main requirement
Title of the work	No abbreviations or acronyms
Practical significance	No more than 350 characters without spaces
Abstract text	From 500 to 3,000 characters without spaces
Abstract structure	1. Introduction 2. Purpose of the study 3. Materials and methods 4. Results 5. Conclusions
Originality	85% or more
Authors	No more than 5
Scientific advisers	No more than 3
Language	Russian or English
Date of birth	All authors must be under 35 years old

3. Practical significance of the research

The practical significance is specified in a separate field of the application and is not included in the structure of the abstract text. In this section, you should briefly state the significance of the obtained results and how they can be used in scientific, clinical, educational, organizational or other practice.

It is not recommended to limit yourself to general wording ("the work has practical significance", "the results can be used in medicine"). The wording must be related to the specific results of the presented research.

4. Authors and speaker

No more than 5 authors can be specified in one application. The first author of the presented work may be the speaker. One participant may be a speaker and first author of only one work, although participation as a co-author of other works submitted to the Conference is allowed. The scientific adviser of the work is not included in the list of its authors.

5. Scientific advisers

No more than 3 scientific advisers can be specified for one work. In the application, information about the authors and scientific advisers is filled in in the corresponding separate fields. The scientific degree and scientific title are given in abbreviated form, for example: PhD; MD; Assoc. Prof.; Prof.

6. Name of the organization

When filling out the application, you must specify the full official name of the organization. The name of the organization must correspond to the information posted on the official website of the organization in the section with information about the institution. Do not use an abbreviated, colloquial or incomplete name of the organization.

Examples:

Incorrect: RNRMU, Moscow, Russia; RUDN, Moscow, Russia

Correct:

- Federal State Autonomous Educational Institution of Higher Education «N.I. Pirogov Russian National Research Medical University» of the Ministry of Health of the Russian Federation (Pirogov University);
- Federal State Autonomous Educational Institution of Higher Education «Patrice Lumumba Peoples' Friendship University of Russia».

If the full official name of the organization contains quotes, please use double angled quotes - «».

7. Abbreviations and special designations

Abbreviations and acronyms are not allowed in the title of the work. In the text of the abstract, abbreviations are allowed provided they are spelled out at the first mention. After the first explanation, the abbreviated form may be used without further clarification.

For example: inflammatory bowel disease (IBD). Further in the text: IBD.

When English-language terms and abbreviations are used in an abstract written in Russian, their translation or decoding in Russian must be given at the first mention.
