

**Календарно – тематический план занятий по дисциплине
Эндодонтия 4 курс (35 кабинет, Островитянова 1 стр. 9)**

01.09. -16.09.	9.00-14:30	6.4.31	Никольская И.А.
17.09. - 02.10.	9.00-14:30	6.4.32	Никольская И.А.
22.10. - 06.11.	9.00-15:00	6.4.33	Никольская И.А.
26.11. – 11.12	9.00-13:40	6.4.34	Никольская И.А.
09.11. - 25.11.	9.00-14:30	6.4.35	Никольская И.А.

№ п/п	Тема занятия
1.	Anatomical and physiological features of the periodontium. Etiology, pathogenesis of inflammation of the apical periodontium. Classifications of apical periodontitis (MMSI, ICD-10) Methods of diagnostics of apical periodontitis. Examination of the patient.
2.	Clinic, diagnostics, differential diagnostics of acute apical periodontitis. Severity of clinical manifestations of acute periodontitis in the intoxication phase and in the phase of pronounced exudative phenomena. General condition of the patient with periodontitis.
3.	Clinic, diagnostics and differential diagnostics of chronic periodontitis. Clinic of chronic and exacerbation of chronic periodontitis. General condition of a patient with exacerbation of chronic periodontitis.
4.	Planning and preparation for treatment of apical periodontitis. Irrigation and disinfection of root canals. Temporary filling of root canals. Antibacterial agents. Selection of filling material and filling of root canals.
5.	Emergency treatment of teeth with viable and non-viable pulp.
6.	Errors in the diagnosis of pulpitis and periodontitis. Errors and complications in the treatment of pulpitis and periodontitis. Methods of preventing and eliminating errors and complications in endodontics.
7	Methods of treating teeth with "problematic" root canals. Conservative-surgical methods in endodontics. Medicinal and physical methods of treating periodontitis. Remote results and prognosis of treatment.
8	Restoration of teeth after endodontic treatment. Use of pins. Whitening of teeth with changed color.
9	Endodontic retreatment. Risks and benefits of orthograde retreatment. Indications and contraindications for endodontic retreatment.
10	Resorption. Classification of resorptions. Methods of eliminating pathological resorption.
11	Endoperiolesions. (Endo-periodontal) Etiology. Diagnostics. Treatment.
12	Dental infection focus. Focal-caused diseases. Clinical manifestations. Diagnostics. Indications and contraindications for the use of antibacterial therapy in the treatment of patients with pulp and periodontal diseases belonging to risk groups
13	Colloquium
