

CALENDAR PLAN

Practical classes in human anatomy for first-year students

Faculty of Dentistry

Spring semester 2025-2026

Semester begins February 9, 2026. Semester ends June 5, 2026.

Duration of theoretical training: 17 weeks* (Second semester)

№	DATE		TOPIC
1.	09.02.2026	13.02.2026	Introduction to craniology. Overview of the skull. Bones of the cranium – frontal, parietal, occipital, sphenoid, temporal, ethmoid
2.	16.02.2026	20.02.2026	Bones of the facial skull. The skull as a whole. The temporomandibular joint.
3.	23.02.2026	27.02.2026	Masticatory muscles. Facial muscles. Osteofascial and intermuscular spaces of the head.
4.	02.03.2026	06.03.2026	Neck muscles. Neck fascia, topographic triangles, cellular spaces.
5.	09.03.2026	13.03.2026	Current midterm (modular) control on topic 9-10: Craniology. Joints of the skull bones. Muscles of the head and neck
6.	16.03.2026	20.03.2026	Oral cavity. Hard and soft palate, gums, tongue. Salivary glands. Cellular spaces of the floor of the mouth.
7.	23.03.2026	27.03.2026	General principles of dental structure. Structure of permanent incisors and canines. Timing of eruption. Anomalies.
8.	30.03.2026	03.04.2026	Structure of premolars and molars. Timing of eruption. Anomalies.
9.	06.04.2026	10.04.2026	Current midterm (modular) control on topic 11: Anatomy of the oral cavity and teeth
10.	13.04.2026	17.04.2026	The organ of vision. The organ of hearing and balance. III, IV, VI, VIII pairs of cranial nerves.
11.	20.04.2026	24.04.2026	V, VII, IX, X, XI, XII pairs of cranial nerves.
12.	27.04.2026	01.05.2026	Cervical plexus. Autonomic innervation of the organs of the head and neck.
13.	04.05.2026	08.05.2026	Arteries of the head and neck. Common carotid, external, and internal carotid arteries. Subclavian artery. Arterial intra- and intersystemic anastomoses.
14.	11.05.2026	15.05.2026	Veins of the head and neck: internal, external, and anterior jugular veins. Venous anastomoses in the head region. Lymphatic drainage from the head and neck. Regional lymph nodes.
15.	18.05.2026	22.05.2026	Current midterm (modular) control on topic 12-13: Esthesiology. Innervation of the head and neck. Blood supply and innervation of the head and neck

Head of the teaching Department of Human Anatomy Department, IAM

Vladimirova Y.B.

Head of the Department of Human Anatomy, IAM

Shemyakov S.E.
