

**Календарно – тематический план занятий по дисциплине
ПРОФИЛАКТИКА 3 курса**

Аудитория: Кабинет 124,125,122 Ленинский проспект д.8, корп.10.

6.3.33	09.02 - 27.02	9:00 – 13:30	Гилева И.Ю.
6.3.32	10.03 – 27.03	9:00 – 13:50	Гилева И.Ю.
6.3.31	30.03 – 17.04	9:00 – 13:00	Гилева И.Ю.
6.3.35	23.04 – 13.05	9:00 – 13:50	Гилева И.Ю.
6.3.34	18.05 – 05.06	9:00 – 13:00	Гилева И.Ю.

№ п/п	Тема занятия	Форма контроля
1.	Risk factors for periodontal diseases and their elimination. Features of examination of patients with periodontal diseases. Practical development of periodontal indices	РЗ ПКН КП К
2	Oral mucosal structure. Basic and additional methods for diagnosing oral mucosal diseases. Prevention of oral mucosal diseases.	КП ОК К ПКН
3	Methods and means of professional oral hygiene. GBT protocol. Hand instruments. Practical mastering of methods of dental plaque removal.	ПКН КП К ОК
5.	Hygienic education and hygiene training for preschoolers and schoolchildren of various age groups. Organization and holding of "hygiene lessons" in children's educational institutions.	ПКН КП ИБ
6	Non-carious lesions of teeth occurring before eruption. Classification. Prevention. Risk factors for the occurrence of systemic and local hypoplasia, fluorosis and methods of their elimination. Differential diagnostics of spots in fluorosis, hypoplasia. Hyperplasia. Hypomineralization of molars and incisors (МИН)	РЗ ОК КП К
7	Hereditary disorders of dental development. Imperfect amelogenesis and dentinogenesis. Congenital malformations of teeth, jaws and face.	РЗ ОК КП К
8	Prevention of non-carious lesions that occur after eruption: abrasion and wear of hard dental tissues, enamel erosion, acid necrosis. Risk factors for occurrence and methods of their elimination.	РЗ ОК КП К
9	Prevention of tooth discoloration. Professional teeth whitening (in-office and at-home). Review of the ZOOM, Opalescence, and Flash systems. Laser whitening. Design of at-home whitening trays. The role of remineralizing therapy in teeth whitening.	КП ОК ПКН К
10	The colloquium	ОК КП

11	Antenatal prevention. Features of dental disease prevention in pregnant women and young children. Age-related anatomical and physiological features of the dental system. The role of nutrition in the development of the dental system	РЗ ОК КП К
12	Risk factors for the occurrence and development of dental anomalies and deformations in children, their prevention. The role of bad habits in the occurrence of dental anomalies. Methods of prevention of dental anomalies.	РЗ ОК КП К
13	Epidemiological dental examination of the population. The importance of the survey results for the development and evaluation of the effectiveness of prevention programs. Comprehensive programs for the prevention of dental diseases.	ПКН КП ИБ
14	Dental checkups for children. Principles for organizing dental checkups for infants, preschoolers, and school-age children.	КП ОК К
15	The colloquium. Control of students' practical skills	КП ОК
